Subject: RE: Draft Titliest data transmittal letter

Elaine,

I accepted all your changes and made a few of my own (aside from just minor edits). It made more sense to me to address this to Kevin Kelly (he is listed as a contact in the access agreement) and ask that he contact you within 10 days with an answer to whether or not Acushnet Company is OK with us sharing this sampling info with AVX. (Almost is irrelevant since we are copying the state on the letter anyway and they should be sharing it with AVX). I copied Frye and Giroux in the cc list (most of which can go by email, expect Kelly and Frye should get hard copies by first-class mail, and Kelly should also get an email one).

Max can help you if you want to change anything but you should probably get this letter out this week. I'm around if you want to call and discuss anything. Call my cell phone.

Ginny could email the letter to Kelly (and the other email recipients) with the following note:

Mr. Kelly:

Attached is a letter advising you of sampling results from investigations EPA conducted on

Acushnet Company property as part of the New Bedford Harbor Superfund Site cleanup. You will note the letter requests that you contact Elaine Stanley at EPA within 10 days to discuss the contents of the letter. As stated, Elaine can be reached by email at Stanley.elanet@epa.gov or by phone at (617) 918-1332.

Subject: Draft Titliest data transmittal letter

Cindy – attached is the draft Titliest data transmittal letter. It still needs some editing but is close to final. I'll forward the draft email next. I haven't had a chance to work on this today. I've been trying to get the facts straight on the IRA and in the middle of writing the email to Angela.

Elaine Stanley
